

KAPLAN BUSINESS SCHOOL

MINIMUM REQUIREMENTS

STUDENT BYOD HARDWARE SYSTEM REQUIREMENT

As an **IT** student at **KBS**, you will be required to bring your own device (**BYOD**). Specific system requirements your device needs to have as an absolute minimum:

MINIMUM REQUIREMENTS

CENTRAL PROCESSING UNIT (CPU) OR PROCESSOR

- 64 bit CPU with at least four or more cores:
 - Intel i5, i7 or higher; or
 - AMD Ryzen 3XXX or 5XXX or higher
- CPU capable of virtualisation:
 - Intel VT-x
 - AMD-V

Please note:

(1) For Windows 11 supported Intel and AMD processors, please refer to <https://docs.microsoft.com/en-us/windows-hardware/design/>

(2) It is expected that your personal device will run a virtualised environment or operating system within the BYOD environment

BRING YOUR OWN DEVICE (BYOD)

- Must be portable (such as a laptop) so that it can be used in the classroom (for workshops) on campus and at your home (for homework)

OPERATING SYSTEM (OS)

- 64 bit OS:
 - Microsoft Windows 10 or 11* (recommended)
 - macOS
 - Linux

*Please note: If you are using or plan to use a Windows OS, and are planning to upgrade from Windows 10 to 11, there may be additional specific requirements. For instance, one of these requirements may be a particular generation of CPU. If purchasing a brand-new laptop or computer, it is highly recommended to double-check the specifications required for Windows 11 to ensure future compatibility of the device. For more information, please refer to the Microsoft Website (www.microsoft.com/en-au/windows/windows-11-specifications?r=1)

INTERNAL STORAGE CAPACITY

- Solid State Drive (SSD) 256GB or greater

RAM

- 16GB RAM or greater

EXTERNAL STORAGE CAPACITY (RECOMMENDED)

- OneDrive is provided to the students for cloud storage backup purposes

DISPLAY SCREEN SIZE / SCREEN RESOLUTION (RECOMMENDED)

- Resolution with 1920x1080 pixels or greater

OTHER ITEMS (RECOMMENDED)

- Discrete GPU or graphics card
- HD Webcam 720p or higher
- Sound capabilities and microphone
- Ability to connect to WiFi. Minimum of 30GB of download allowance per month from your Internet Service Provider. Reliable and stable Internet connection is recommended
