WHAT IS QILT?

The Quality Indicators for Learning and Teaching (QILT) are a suite of national higher education surveys commissioned by the Australian Government Department of Education, Skills and Employment. They are **the most comprehensive education surveys in Australia**, covering the student life cycle from commencement to employment. All 41 universities and almost 100 additional higher education institutions participate each year. The largest survey in the suite, the Student Experience Survey (SES), received responses from almost **300,000 undergraduate and postgraduate students** in 2020.
